Gühring est bien plus qu'un simple fournisseur d'outillage.
En tant que partenaire d'outillage et optimiseur de processus, nous vous accompagnons dans tous les domaines, car en tant que fabricant avec garantie de service, nous sommes personnellement à vos côtés. Qu'il s'agisse de centaines de commerciaux sur place ou de nos interlocuteurs personnels sur tous les canaux numériques: Nous sommes à vos côtés.

GÜHRING

Perfection de l'usinage

Votre succès est notre mission.

Ensemble, nous tirons le meilleur parti de votre production.

POUR LES **DÉCIDEURS**

Avec vous, nous atteignons votre objectif.

Augmentez votre rendement avec des outils sur mesure

GÜHRING Technicien d'application | Représentant commercial | Responsables produits | Département Retooling

Nous produisons des solutions lorsque les revendeurs ne trouvent plus rien dans leur gamme de produits et combinons pour vous des étapes de travail ou optimisons vos processus.
Avec des outils sur mesure ou des solutions spécialement conçues pour vous, nous élaborons pour vous le processus optimal – pour une meilleure production et un travail plus efficace.

Économisez 20 % sur les coûts d'outillage grâce à la gestion des outils

GÜHRING Distributeurs d'outils | Logiciel Tool Management de Gühring | Tool Manager

En tant que partenaire logistique, nous prenons en charge l'ensemble de votre processus de gestion des outils : Ainsi, non seulement vous externalisez vos pièces détachées, mais vous évitez également tout risque de sur ou de sous approvisionnement. La planification, l'ordonnancement et la gestion de commande vous permettent d'économiser du temps et de l'argent. Réduisez vos coûts d'outillage dès le premier jour!

Le reconditionnement des outils permet d'économiser de l'argent

GÜHRING Réaffûtage | Remplacement du revêtement

En tant que fabricant, nous prenons également soin de votre outil s'il est usé. C'est ainsi que nous rétablissons les performances d'origine de nos produits grâce à un réaffûtage et à un remplacement du revêtement professionnel. Nous récupérons les outils directement chez vous.

Résoudre des problèmes d'usinage complexes

GÜHRING Spécialistes des processus

Optimisez votre processus d'usinage grâce à l'analyse permanente des données de processus:
Grâce à notre analyse des données de processus, vous pouvez rendre visibles les causes d'usure et de pannes et les éviter.

N'hésitez pas à nous contacter si vous souhaitez obtenir plus d'informations sur nos services et leur disponibilité dans votre pays.

POUR LES **FAISEURS**

Faire quand les autres testent encore

Données de coupe testées par le fabricant

GÜHRING Catalogue Gühring | webshop.guehring.de | https://webnavigator.guehring.de/fr/

La machine fonctionne, l'outil est dans le magasin, mais vous n'êtes pas sûr de son utilisation? Vous trouverez les données de coupe de tous nos outils dans le catalogue à la fin de chaque chapitre, dans la boutique en ligne Gühring pour votre achat ou dans le navigateur, où vous pouvez filtrer par usinages et matériaux spécifiques.

Trouver l'outil adapté

GÜHRING Recherche rapide dans le catalogue Gühring | webnavigator.guehring.de/fr

Les arbres vous cachent la forêt? Avec le Quickfinder Gühring, l'aperçu intuitif des produits, vous trouverez la solution adaptée à votre cas d'application spécifique.
Le tout est disponible sous forme numérique à l'aide du Navigateur Gühring.

Données d'outils et dessins CAO disponibles à tout moment

GÜHRING webshop.guehring.de

Vous avez besoin de dessins ou vous souhaitez simuler votre usinage?
Nous mettons les données à votre disposition gratuitement en téléchargement:
En tant qu'utilisateur enregistré dans la boutique en ligne, téléchargez en un clic les formats de fichier disponibles PNG, XML-Meta, DXF, STEP ou XML_4000.

Contactez l'un de nos experts

GÜHRING Représentant commercial | WhatsApp +49 172 65 85 353 | Chat personnel sur guehring.com

Vous êtes à la machine et vous avez besoin d'une assistance immédiate?
Parlez en personne ou par chat avec nos ingénieurs d'application. Ou envoyez-nous un message WhatsApp. Qu'il s'agisse de texte, de photo ou de message vocal: Nous garantissons également des conseils personnalisés, compétents et rapides par voie numérique. Enregistrez le numéro dès maintenant: +49 172 65 85 353!

N'hésitez pas à nous contacter si vous souhaitez obtenir plus d'informations sur nos services et leur disponibilité dans votre pays.

POUR LES **ACHETEURS**

Chez nous, vous en avez pour votre argent.

Vue d'ensemble de vos prix nets, disponibilités et contrats personnels

GÜHRING webshop.guehring.de

Dans la boutique en ligne Gühring, vous voyez vos prix nets, disponibilités et contrats en un coup d'œil et pouvez configurer vous-même votre processus d'approvisionnement et définir des workflows d'approbation. En outre, le chat vous permet de contacter rapidement et personnellement des experts produits et des ingénieurs d'application.
Et si vous commandez avant 17h, nous expédions la marchandise le jour même!

Interfaces avec votre système ERP

GÜHRING webshop.guehring.de

Fini le travail en double: Nos interfaces pratiques connectent la boutique en ligne Gühring à votre système ERP. Vous pouvez ainsi commander sans double saisie de données.
Et le logiciel de gestion d'outils Gühring permet de commander automatiquement des outils supplémentaires si vous le souhaitez.

Automatiser les processus d'achat

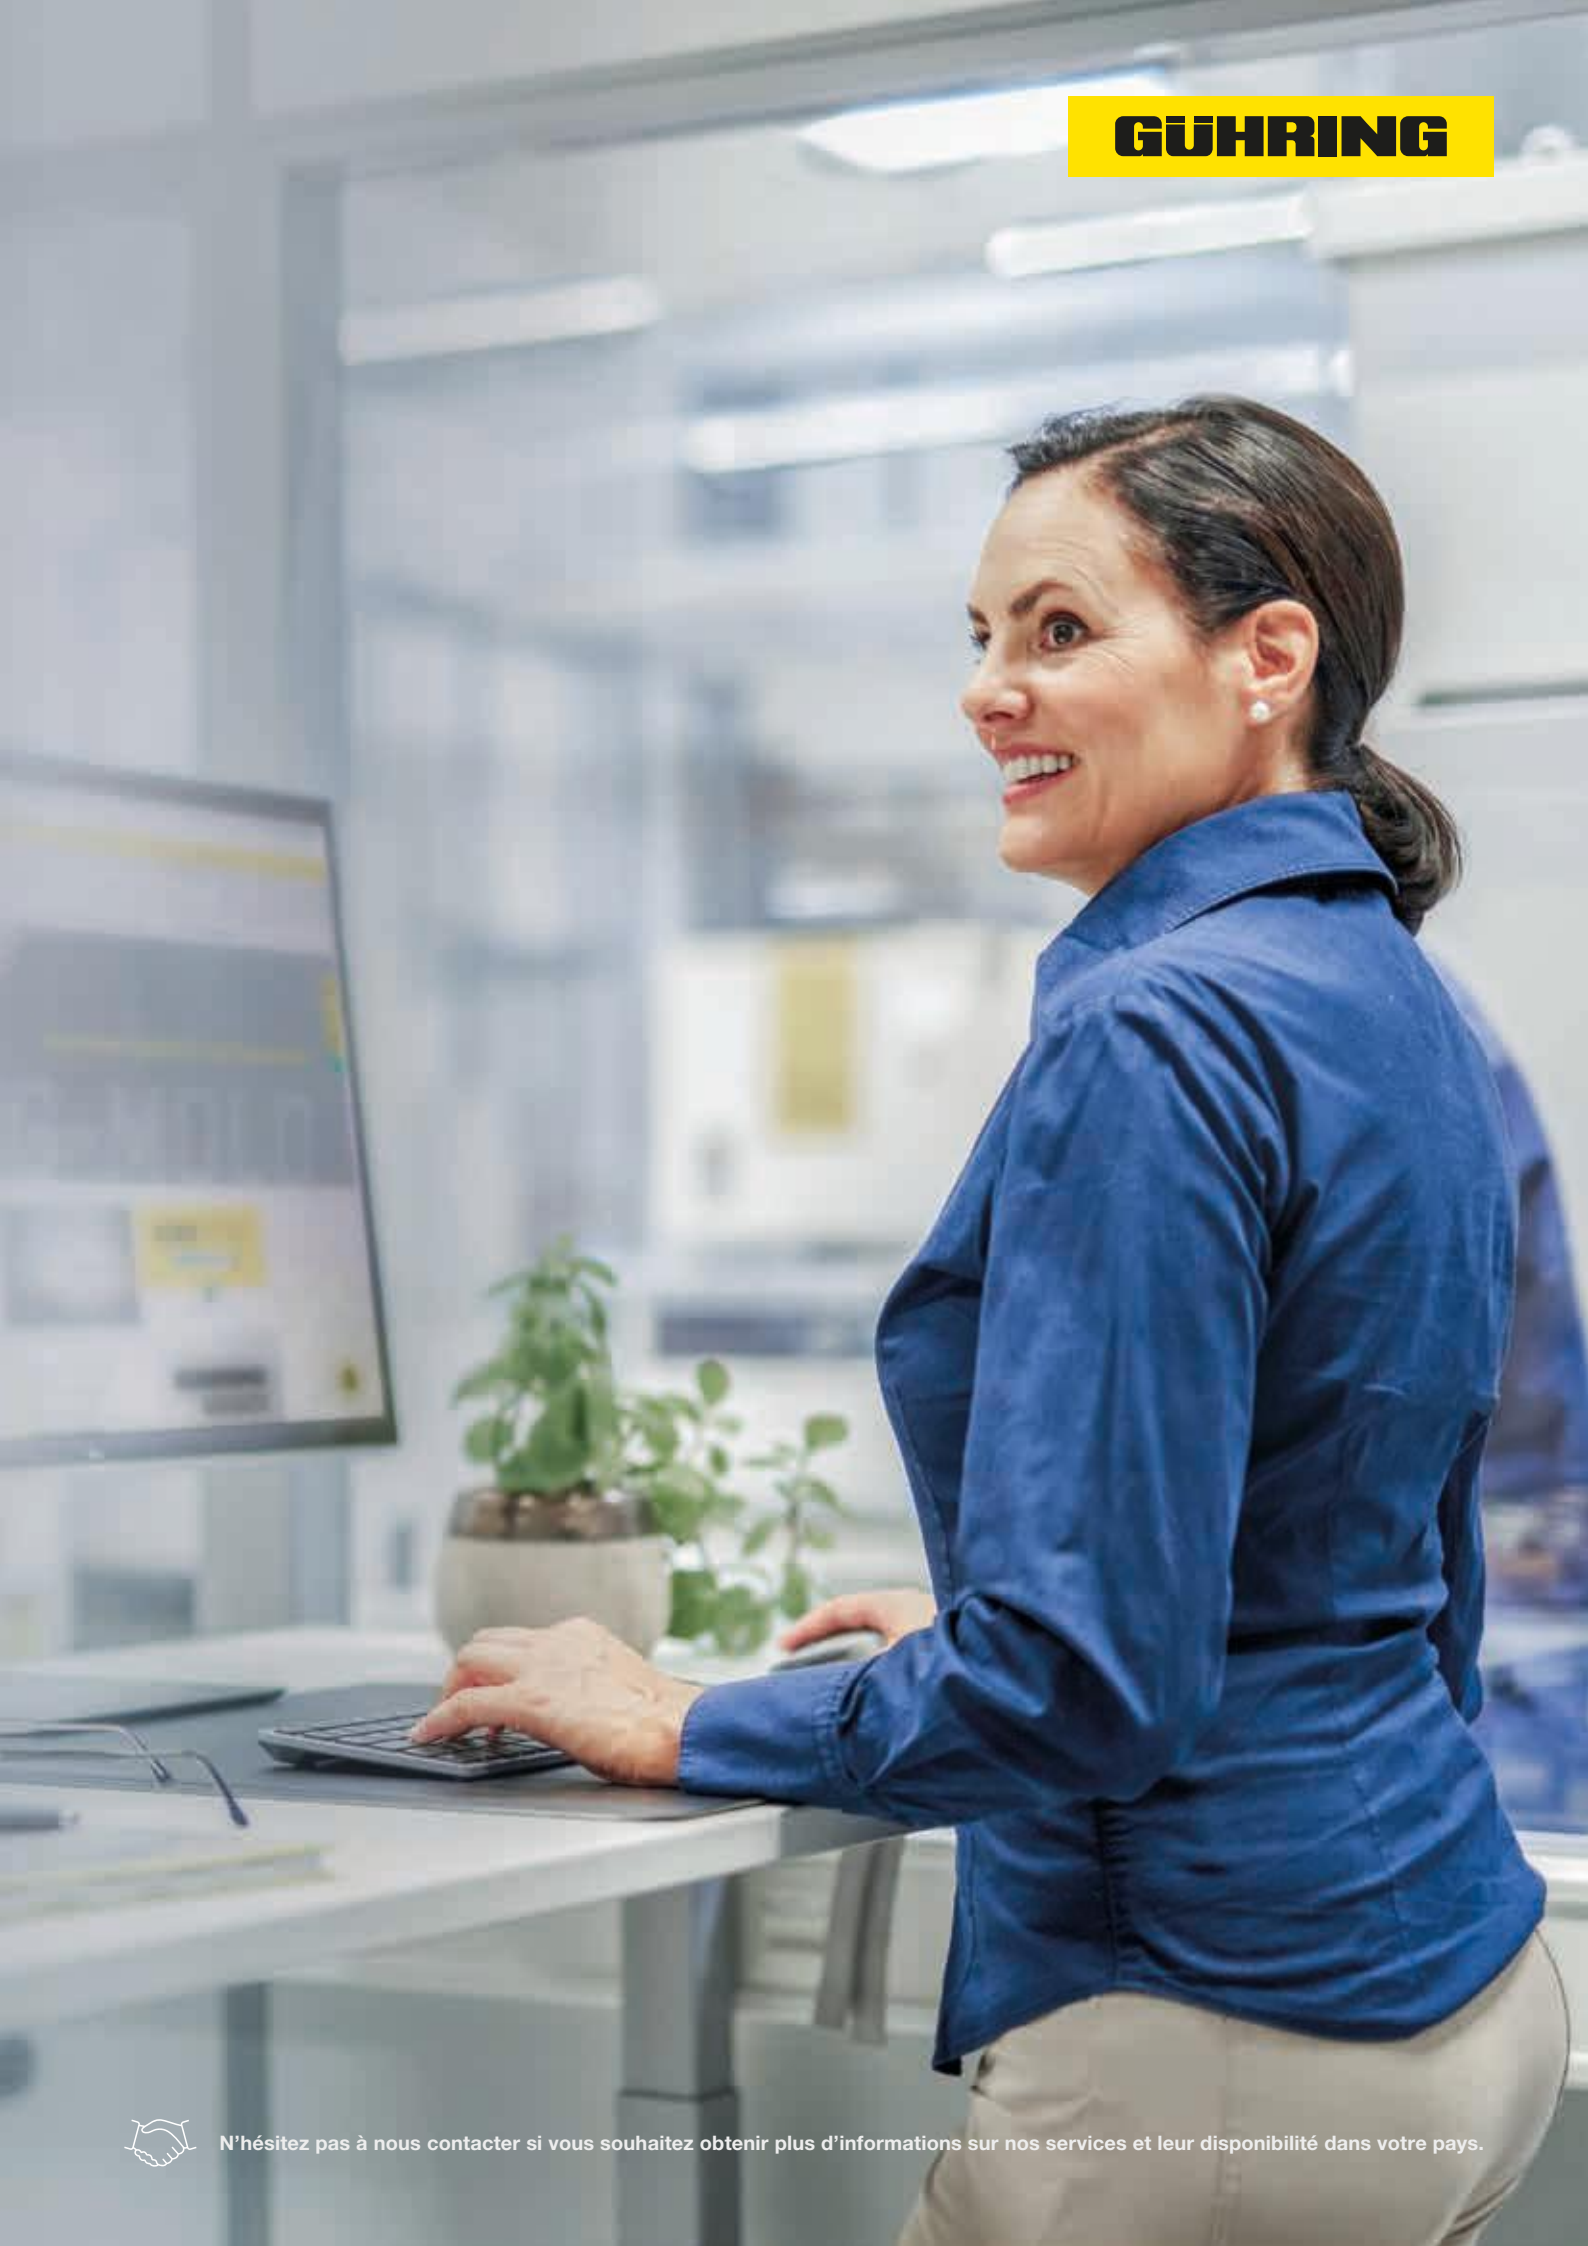
GÜHRING Gestion d'outils | Logiciel Tool Management de Gühring | Distributeurs d'outils

Avec notre logiciel de gestion d'outils sans lien avec le fabricant, nous sommes votre partenaire logistique central pour l'approvisionnement de tous les produits dans le domaine de l'enlèvement de copeaux ou de la production. Stock de consignation et suivi des délais inclus.

Votre fournisseur d'outils complets

GÜHRING Catalogue Gühring | webshop.guehring.de

Parfois, plus, c'est plus: En tant que fabricant, nous garantissons une disponibilité élevée des stocks et une livraison rapide de plus de 110 000 articles standards.



N’hésitez pas à nous contacter si vous souhaitez obtenir plus d’informations sur nos services et leur disponibilité dans votre pays.

Performance durable

Métal dur et préparation d'outils de Gühring

Tirez le meilleur parti de votre outil

Pourquoi faire réaffûter votre outil s'il est usé? Gühring rétablit la performance initiale de ses produits grâce à un réaffûtage et un revêtement de finition professionnels, tout en prolongeant la durée de vie des outils. Vous devez donc prévoir beaucoup moins de moyens pour les nouveaux achats. Et si la fin de vie de vos outils en carbure monobloc est atteinte, vous pouvez échanger votre carbure chez nous. En effet, en tant que fabricant de carbure, Gühring est en mesure de recycler les précieuses matières premières issues du carbure et vous rémunère en contrepartie.

- **Exploitez au maximum les performances de vos outils grâce au réaffûtage**
- **Jusqu'à 62 % d'économie par outil grâce au réaffutage**
- **Transformez votre ferraille en argent avec le recyclage du carbure**

N'hésitez pas à nous contacter si vous souhaitez obtenir plus d'informations sur nos services et leur disponibilité dans votre pays.

20 % d’économie

GTMS Software

Logiciel Tool Management Gühring & systèmes de sortie

Confiez-nous la gestion de vos outils

Votre gestion d’outils est encore évolutive, mais vous manquez de temps pour vous améliorer en plus de vos activités quotidiennes? Gühring Tool Management s’est spécialisé dans des sujets tels que la logistique, l’approvisionnement et la planification de vos outils. Qu’il s’agisse de nos systèmes de distribution d’outils, de la gestion d’outils basée sur les données, du logiciel Gühring Tool Management Software (GTMS) ou de la logistique, ou encore des services complets liés à l’achat d’outils, Gühring s’occupe de votre outil et vous pouvez vous concentrer sur vos activités à valeur ajoutée.

- **Créer de la transparence sur les consommations et les stocks**
- **Éviter les temps d’arrêt des machines grâce à la sécurité d’approvisionnement**
- **Plus de temps pour des activités à valeur ajoutée**

Boutique en ligne Gühring

Acheter des outils en toute simplicité

Vous commandez des outils en quelques clics, exactement quand cela vous convient. Vous pouvez vérifier la disponibilité des outils en ligne à toute heure. La création de listes de sélection et de modèles de paniers vous épargne du travail en cas de besoins récurrents. En outre, vous avez la possibilité d’attribuer des rôles d’utilisateur individuels à vos collaborateurs. Utilisez également notre fonction d’abonnement dans le magasin pour commander automatiquement des outils supplémentaires. Et avec la fonction d’appel, vous pouvez gérer vous-même vos contrats dans le magasin.

- **Consulter le prix et le stock en temps réel**
- **Des numéros de matériel spécifiques facilitent la commande**
- **Des processus de validation personnalisés pour votre entreprise**
- **Télécharger facilement les données CAO directement à l’achat**

Microforets en HSS-E PM fritté, sans canaux de lubrification — N° d'article 301

HSS-E-PM | N | ~5xD | DIN 1899 | 118° | 0/-0,004 | R | Cyl

< Ø 0,15 mm acier rapide au Co • affûtage en pente • avec attachement renforcé

Paramètres de coupe, p. 394

P	M	K	N	S	H

Microforets en HSS-E PM fritté, sans canaux de lubrification — N° d'article 660

HSS-E-PM | S | N | ~5xD | DIN 1899 | 118° | 0/-0,004 | R | Cyl

affûtage en pente • avec attachement renforcé • meilleure résistance à l´usure

Paramètres de coupe, p. 394

Forets Ratio à canaux de lubrification

N° d'article **8520**

Paramètres de coupe, p. 404

P	M	K	N	S	H
●				●	○

VHM | RT 100 HF | 3xD | DIN 6537 K | 140° | m7 | HA

amin. de l'âme ≥ Ø 3,000 • affûtage à dépouille conique • forme de l´arête de coupe principale légèrement concave • géométrie de coupe optimisée • quatre listels de guidage

Forets Ratio à canaux de lubrification

N° d'article **6498**

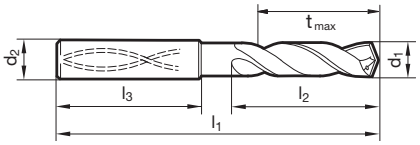
Paramètres de coupe, p. 406

VHM | F | RT 100 XF | 3xD | DIN 6537K | 140° | m7 | R | HA

P	M	K	N	S	H
●	○	○		○	○

amin. de l'âme ≥ Ø 3,000 • affûtage à dépouille conique • forme concave de l´arête de coupe principale • géométrie de coupe optimisée • performance maximale • quatre listels de guidage

$t_{max} = l_2 - 1{,}5 \times d_1$



N° d'article **6498**

Forets Ratio à canaux de lubrification

N° d'article **6515**

Paramètres de coupe, p. 419

P	M	K	N	S	H
			•		

VHM | RT 100 T AL | 15xD | WN | 135° | h7 | HA

amin. de l'âme ≥ Ø 3,000 • affûtage en pente • forme concave de l´arête de coupe principale • section des goujures optimisée • section maximale des canaux de lubrification • respecter la pression du liquide de refroid. • pour le pilotage, nous recommandons RT 100 Al, réf. 5768, ou RT 100 FB, réf. 6596

$t_{max} = l_2 - 1{,}5 \times d_1$

Forets Ratio à canaux de lubrification

N° d'article **6516**

Paramètres de coupe, p. 419

P	M	K	N	S	H
			•		

VHM | RT 100 T AL | 20xD | WN | 135° | h7 | R | HA

amin. de l'âme ≥ Ø 3,000 • affûtage en pente • forme concave de l´arête de coupe principale • section des goujures optimisée • section maximale des canaux de lubrification • respecter la pression du liquide de refroid. • pour le pilotage, nous recommandons RT 100 Al, réf. 5768, ou RT 100 FB, réf. 6596

$t_{max} = l_2 - 1{,}5 \times d_1$

Forets Ratio à canaux de lubrification

N° d'article **6517**

Paramètres de coupe, p. 419

P	M	K	N	S	H
			•		

VHM | RT 100 T AL | 25xD | WN | 135° | h7 | R | HA

amin. de l'âme ≥ Ø 3,000 • affûtage en pente • forme concave de l´arête de coupe principale • section des goujures optimisée • section maximale des canaux de lubrification • respecter la pression du liquide de refroid. • pour le pilotage, nous recommandons RT 100 Al, réf. 5768, ou RT 100 FB, réf. 6596

$t_{max} = l_2 - 1{,}5 \times d_1$

Foret hélicoïdal queue cylindrique

N° d'article **6006**

Paramètres de coupe, p. 441

P	M	K	N	S	H
●	●	●	●	○	

amin. de l'âme ≥ Ø 1,000 • forets hélicoïdaux haute performance • acier métallurgique pulvérisé • affûtage 4 pentes • faible effort d'avance nécessaire • faible effort de couple nécessaire • pour applications universelles

Forets hélicoïdaux courts — N° d'article 605

HSCO | Ti | ~5xD | DIN 338 | 130° | h8 | R | Cyl

amin. de l'âme ≥ Ø 0,970 • affûtage à dépouille conique • acier rapide au Co • meilleure résistance à l´usure

Paramètres de coupe, p. 454

Forets hélicoïdaux longs — N° d'article 336

Paramètres de coupe, p. 462-463

P	M	K	N	S	H
●	●	●	●	○	○

HSCO | >Ø 2,36 | GT 100 | ~10xD | DIN 340 | 130° | h8 | R | Cyl

amin. de l'âme ≥ Ø 1,000 • affûtage à dépouille conique • acier rapide au Co • goujures larges • meilleure résistance à l´usure • en cas de mauvaise évacuation des copeaux

Forets hélicoïdaux longs — N° d'article 617

HSCO | Ti | ~10xD | DIN 340 | 130° | h8 | R | Cyl

amin. de l'âme ≥ Ø 1,000 • affûtage à dépouille conique • acier rapide au Co • meilleure résistance à l´usure

Paramètres de coupe, p. 465

Forets hélicoïdaux

N° d'article **345**

HSCO | N | ~5xD | DIN 345 | 118° | h8 | R | MK

amin. de l'âme ≥ Ø 3,000 • affûtage à dépouille conique • acier rapide au Co • meilleure résistance à l´usure

Paramètres de coupe, p. 442

EXCLUSIVELINE®

MICRO-FORETS VA

DURÉES DE VIE ET AVANCES NETTEMENT PLUS LONGUES DANS LES MATÉRIAUX DIFFICILES À USINER

- Évacuation fiable des copeaux grâce aux surfaces lisses et au revêtement HiPIMS
- Jusqu'à deux fois plus rapide
- Nouveau profil de rainure avec arête de coupe principale concave pour un comportement de coupe plus agressif
- Ø 0,5 – 3,0 mm | avec refroidissement interne à partir de Ø 1,0 mm

Forets pilote avec canaux de refroidissement, RT 100 FB

GU 500

PERFORMANCES ET DURÉE DE VIE ÉLEVÉES DANS PRESQUE TOUS LES MATÉRIAUX

Avec la gamme GU 500, Gühring vous propose une gamme complète d'outils de perçage HSS hautes performances, qui proposent un usinage efficace quelle que soit l'application et une longue durée de vie.

- Excellent auto-centrage pour des alésages aux dimensions particulièrement précises
- Performances et résistance à l'usure élevées grâce à un acier basé sur la technique de métallurgie des poudres et revêtement multicouche
- Faibles forces d'avance et couples réduits grâce à l'affûtage en pointe

Outils de fraisage

**De l'énorme débit copeaux
à la précision micrométrique**

Avec les fraises de Gühring,
les copeaux volent exactement
comme vous le souhaitez.

Fraise grande avance G-Mold 65 HF

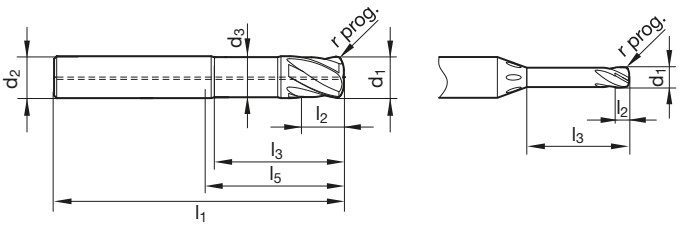
N° d'article **6830**

VHM | Y | H | WN | 30° | 4 | HA | -7° | 65 HRC

Paramètres de coupe, p. 699

P	M	K	N	S	H
•	•	•		•	•

pour l'ébauche grande avance avec faible ap et fz maximal • avec refroidissement interne - axiale à partir de Ø 4 mm • avec refroidissement périphériques GühroJet à partir de Ø 1-3 mm • avec dégagement • sans coupe au centre



N° d'article **6830**
